

I am filing this to let the FCC know I am opposed to the new broadcast service, LPFM. A local station, K-LOVE, could be knocked off the air by this new service. I feel K-LOVE serves me well as a resident of my community. Additionally, if K-LOVE is knocked off the air, I believe it will a great disjustice to those in the community who are encouraged and inspired by the programming on this great family station. As a family-oriented station, I believe that K-LOVE's on air existance is in the public's best interest as it underscores the traditional values that this country was founded on. Thank you.
